

# BirdApp Mobile Dashboard View

## Egg Production Trends

Displays daily and weekly egg production using line and bar charts. Helps monitor flock productivity and detect anomalies.

## Feed Consumption

Shows feed usage per flock and per day. Includes consumption trends and alerts for over/under feeding.

## Health Alerts

Highlights recent health checks, vaccination status, and alerts for abnormal behavior or mortality.

## Responsive Design Principles

Layout adapts to mobile screen sizes. Uses collapsible sections, scrollable charts, and touch-friendly buttons for navigation.
